$$\begin{array}{r} 8 + 6 = \\ \hline \end{array}$$

Diagram showing a ten-frame with 8 dots in the top row and 6 dots in the bottom row. A circle is drawn around the 8 dots, and another circle is drawn around the 6 dots. A line connects the 8 and 6, and the number 10 is written below the 6.

$$\begin{array}{r} 9 + 6 = \\ \hline \end{array}$$

Diagram showing a ten-frame with 9 dots in the top row and 6 dots in the bottom row. A circle is drawn around the 9 dots, and another circle is drawn around the 6 dots. A line connects the 9 and 6, and the number 10 is written below the 6.

$$\begin{array}{r} 8 + 6 = \\ \hline 10 \end{array}$$

Diagram showing a ten-frame with 8 dots in the top row and 6 dots in the bottom row. A circle is drawn around the 8 dots, and another circle is drawn around the 6 dots. A line connects the 8 and 6, and the number 10 is written below the 8. Below the 6, the equation $6 - 2 =$ is written with an arrow pointing to the right.

$$\begin{array}{r} 9 + 6 = \\ \hline 10 \end{array}$$

Diagram showing a ten-frame with 9 dots in the top row and 6 dots in the bottom row. A circle is drawn around the 9 dots, and another circle is drawn around the 6 dots. A line connects the 9 and 6, and the number 10 is written below the 9. Below the 6, the equation $6 - 1 =$ is written with an arrow pointing to the right.

$$\begin{array}{r} 8 + 6 = \square \\ \hline 10 \end{array}$$

Diagram showing a ten-frame with 8 dots in the top row and 6 dots in the bottom row. A circle is drawn around the 8 dots, and another circle is drawn around the 6 dots. A line connects the 8 and 6, and the number 10 is written below the 8. Below the 6, the equation $6 - 2 =$ is written with an arrow pointing to the right. A red box is drawn around the 10 and 4, and a red arrow points from the 4 to the empty box in the equation above.
